

- Would you like to work with a surgeon who understands implant prosthetics at every step in the restoring process?
- Would you like to make your cases more cost effective and profitable?
- Would you like to expand into more complex prosthetic cases but need a little help to design your cases and plan the prosthetic steps?
- Do you like the idea of your surgeon being on a first name basis with your laboratory?
- Would you like advice on setting proper prosthetic fees to ensure a profitable case?

**If you answered yes to any of these questions,
we are proud to recommend Dr. James McAnally.**

Dr. McAnally has worked with SeaBrook during the past decade on a multitude of implant cases. Tim and Dr. McAnally have developed some novel ways to simplify your prosthetic steps. All you have to do is ask!

Dr. McAnally trained under the world-renowned implantologist and prosthodontist Dr. Carl Misch in comprehensive implant diagnosis, surgery, and prosthetics. He holds a fellowship in the International Congress of Oral Implantologists. Single, multiple teeth, full mouth cases, immediate placement with tissue management, bone grafting, and mini-implants are all current areas of focus in Dr. McAnally's implantology practice.

Dr. McAnally provides his referring doctors with a prosthetic sequence for each case, if needed, (no matter how simple or complex) that is laid out appointment by appointment, from start to finish. He can even suggest a range of fees for a particular prosthetic plan. In addition, the initial prosthetic steps such as implant position transfers and verification are completed before the patient returns to your office to save you chair time! He'll even coach you in case acceptance for implant prosthetics.

Here's Why SeaBrook Recommends Dr. McAnally For Your Implant Surgery Needs:

- 1) Works with SeaBrook to design your case and simplify the prosthetic steps.
- 2) Takes implant prosthetic transfers at time of surgeries, saving you valuable chair time. SeaBrook involved early in prosthetic phase with surgical transfer of implant locations.
- 3) Uses BioHorizons Implants and Prosthetics saving you money and simplifying the lab and restoring doctor's prosthetic steps. Standard abutments included with each implant saving you up to \$150/implant.
- 4) Can provide you with prosthetic step-by-step (simple to full mouth) for each prosthetic appointment.
- 5) Allows more flexibility to restoring Doctor on choosing the point in the prosthetic phase at which the patient returns to your office.
- 6) Offers consultations on setting proper prosthetic fees for profitable cases.
- 7) Offers consultations on increasing your implant case acceptance.
- 8) Resource for implant maintenance recommendations.
- 9) Resource for existing implant cases with problems.
